

Keremcan ŞEKER

Web Developer

keremcanseker1@gmail.com

+90 546 933 4780 - Eskisehir, Turkey

Experience

Freelance Web Developer @ Upwork / local

2022 - Now, Remote

- I'm working with customers helping build their business/projects or solve their web development problems both on Upwork and locally.

Intern Web Developer @ Inovasyon Muhendislik (Turkey/Eskisehir)

Sept 2023 - Nov 2023

- Designed and implemented a customized user activity monitoring system utilizing the ELK stack (Elasticsearch, Logstash, Kibana).
- Effectively tracked system issues, including their locations, durations, error messages, and updates
- Built custom packages for Node.js, Python, and C# to make it simple for working team to send data to monitoring system.

Projects

Blog FUSION - (Next.js, Supabase, TypeScript, NextUI,Amazon S3)

- Fully functional Blog page where users can create, delete and update their posts using rich text editor, and with comment section on each post.
- Intuitive and responsive user interface with NEXTUI, prioritizing a seamless and enjoyable user experience.
- User authentication and authorization using supabase's tokens, safeguarding data privacy and access control.
- Personalized user profiles for content showcase and community interaction.

Portfolio Page - (TypeScript, React, Tailwind, Next.js)

- Designed and implemented a four-page structure encompassing a Home page, About page, Contact page, and Projects page to present a comprehensive overview of the developer's skills and achievements.
- Incorporated a user-friendly contact form on the webpage, allowing visitors to conveniently send emails and inquiries directly from the site.
- Created and sold this portfolio page on Upwork for a client.

PHTS - (TypeScript, React, Nodejs, PostgreSQL, Docker, Sequelize)

- Developed for staff in a local hospital in Turkey.
- Helps staff tracking cancer-positive patients and managing their treatment progress.
- Staff members can add or view patients, schedule appointments as needed, without compromising their privacy rights.
- Admin panel and features are included, giving control to manage staff and assign permissions, ensuring a smooth and secure workflow

Education

Bachelor's of Computer Engineering @ Eskisehir Osmangazi University (Eskisehir, Turkey)

2020- 2025 (Expected)

3rd Grade, **3.00 GPA**
